

As an Indiana citizen, I am very much opposed to the petition filed by the CBA to weaken Indiana's Do Not Call requirements. I have read the CBA's petition and I do not believe that their "frustration" with Indiana's law exceeds the frustrations of the millions of Indiana citizens who currently are not bothered by unwanted and unsolicited telemarketing calls. PLEASE do not weaken our law. As long as I'm paying for the phone, I should have the right to control who calls.
